Each inspection which is not deemed ready for inspection at the scheduled time shall be considered a failed inspection and subject to re-inspection. The re-inspection fee shall be paid within 10 calendar days of the date of the inspection causing the fee, and prior to a certificate of occupancy being issued for the project. Subsequent inspections for that permitted project shall not be conducted until all past due re-inspection fees have been

paid. The Building Official shall have the authority to waive re-inspection fees as deemed necessary.

3. Section 108.3 of the International Existing Buildings Code is hereby changed to read as follows:

Section 108.3 Building Permit Valuations. The determination of value or valuation under any of the provisions of this code shall be made by the Building Official. The valuation shall be calculated by using the most recent version of Valuation Data Table as published in the International Code Council Building Safety Journal Magazine. The amount to be used for determining the building permit fee shall be the total value of all construction work for which the permit is issued including all finish work, painting, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment. No fee, other than that set forth above, shall be charged for new construction; although this does not preclude the building official from charging separate fees for sewer and water connections and sign installations.

The governing body shall have the right to waive fees as it deems necessary.

4. Section 108.4 of the International Existing Buildings Code is hereby changed to read as follows:

Section 108.4 Work commencing before permit issuance. Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits shall be subject to a fee equal to the permit fee in addition to the required permit fee.

5. Section 702.4 of the International Existing Buildings Code is hereby changed to read as follows:

Section 702.4 Materials and methods. All new work shall comply with materials and method requirements in the National Electrical Code, International Building Code, International Energy Conservation Code, International Plumbing Code and International Mechanical Code, as applicable, that specify material standards, detail of installation and connection, joints, penetrations and continuity of any element, component, or system in the building.

6. Section 705 of the International Existing Buildings Code is hereby deleted.

7. Section 806 of the International Existing Buildings Code is hereby deleted.

8. Section 808.1 of the International Existing Buildings Code is hereby changed to read as follows:

Section 808.1 New installations. All newly installed electrical equipment and wiring relating to work done in any work area shall comply with the materials and method requirements of Chapter 5.

Exception:

Electrical equipment and wiring in newly installed partitions and ceilings shall comply with all applicable requirements of the National Electrical Code as adopted in Section 515.010 of the City Code of Ordinances.

9. Section 808.3.4 of the International Existing Buildings Code is hereby change to read as follows:

Section 808.3.4 Ground Fault Circuit Interruption. Newly installed receptacle outlets shall be provided with ground fault circuit interruption as required by the National Electrical Code as adopted in Section 515.010 of the City Code of Ordinances.

10. Section 808.3.7 of the International Existing Buildings Code is hereby changed to read as follows:

Section 808.3.7 Clearance for equipment. Clearance for electrical service equipment shall be provided in accordance with the National Electrical Code as adopted in Section 515.010 of the City Code of Ordinances.

11. Section 906 of the International Existing Buildings Code is hereby deleted.

12. Section 1008.1 of the International Existing Buildings Code is hereby changed to read as follows:

Section 1008.1 Special occupancies. Where the occupancy of an existing building or part of an existing building is changed to one of the following special occupancies as described in the National Electrical Code, the electrical wiring and equipment of the building or portion thereof that contains the proposed occupancy shall comply with the applicable requirements of the National Electrical Code as adopted in Section 515.010 of the City Code of Ordinances whether or not a change of occupancy group is involved:

1. Hazardous locations
